Friends,

I decided at the last moment to send you this bit of information along with my Fall Catalog about the radio station. I guess you know that we are putting up a new tower, 488 feet high, and we have a new station because our other one had been run for about ten years, and was about worn out. I have done this as a service to my many thousands of radio friends who have listened to me since radio first started in 1925. I sincerely hope that now I can give you better reception and keep you informed. I will deeply appreciate your giving KMA an honest trial and staying with us, as I know you will after you once get started.

It has been a pretty bad year in many ways, but I am confident, and I know you are, that we are going to come out of all this in fine shape.

I will appreciate it if you will tell your friends about KMA too.

With best wishes.
